

To whom it may concern:

It is my honor to recognize Madison Hawn as an extraordinary young woman. As her science teacher and Science Olympiad coach, I have seen her grow socially, emotionally, and academically.

Madison is a bright and attentive young woman that is able to to successfully complete multiple tasks with favorable results despite deadline pressure. She is considered to be among the top students in her class hour. I am confident that she will thrive academically in whatever path she chooses to pursue.

Madison has also greatly enriched our middle school Science Olympiad team by engaging in various activities. Some of the activities Madison was involved in include building a Mousetrap vehicle, being a Disease Detective, and learning about our planet through Dynamic Planet. Madison attended practices before and after school while juggling her academic life and participating in the swim team.

To conclude, I would like to restate my strong recommendation for Madison Hawn. If you have any further questions regarding this recommendation, please do not hesitate to contact me via email at [Brook.Hakanson@Harlem122.org](mailto:Brook.Hakanson@Harlem122.org).

Sincerely,

A handwritten signature in purple ink that reads 'B. Hakanson'.
